Creation : Figma, Adobe XD, Illustrator, Photoshop, Animate, Premiere Pro, Lightroom

LANGUAGE

French : Native language
English : Fluent

INTERESTS

Board games, video editing, ice hockey, cinema

Product Designer

I am passionate about building digital products because I enjoy the process of creation and making products easier to use. This is the reason why I recently made a career transition into product design.

In my past roles, I loved the aspects of interacting with different teams, finding the best solution that fits users.

I believe that my listening, empathic and analysing skills bring an impact on project management.

EXPERIENCES

RATP Web Designer

2022 - Today

- Redesigned an internal website (Metro timetables) by conducting user interviews and incorporating analytics to ensure meaningful experiences for line managers
- Delivered wireframes, prototypes and illustrations

DEEZER Quality Assurance Lead

2016 - Today

- As a QA Lead implemented a quality assurance culture in a large Agile team of 50+ members (iOS, Android, Front-End and Back-End developers, QA analysts, Product managers and designers)
- Onboarded and supervised a team of 4 QA Analysts
- Collaborated with the other QA Leads to coordinate daily tasks and reach the sprint objectives
- Planned Agile rituals during the sprints (Stand-up meetings, Demo, Backlog refinement and Sprint retro)
- Identified and defined functional coverage of all the apps
- Validated more than 1000 users stories that enhanced the apps quality and user experience
- Validated design and product specifications within my Agile team
- Built and maintained automated tests which run on a daily basis to ensure the quality of the service
- Managed the worldwide crowd-testing community across 15+ countries
- Provided analysis of the clients' feedbacks on the App Store and Google Play Store

HENIX Quality Assurance Analyst

2014 - 2016

- Performed test management and delivered test strategies for different clients. Clients include ENGIE, Ministry of Ecology and Mutual insurance companies

RATP Civil Engineer

2012 - 2013

- As a civil engineer performed structural calculations of the RER A infrastructure (Parisian Regional Express Network)

Sogeclair Aeronautical Engineer

2010 - 2012

- As an aeronautical engineer managed structural calculations of the A400M landing gear (military aircraft)
